

## Data sheet for household ovens

In acc. with delegated regulation EU no. 65/2014 and no. 66/2014

| Nr. | Description                                                                                                  | Data                         |
|-----|--------------------------------------------------------------------------------------------------------------|------------------------------|
| 1   | Trade mark                                                                                                   | Küppersbusch Hausgeräte GmbH |
| 2   | Model identifier                                                                                             | B6550.0                      |
| 3   | Energy efficiency index/ cavity (EEI)                                                                        | 81                           |
| 4   | Energy efficiency class/ cavity<br>(A+++ - most efficient to<br>D – least efficient)                         | A+                           |
| 5   | Energy consumption per cycle<br>for each cavity<br>- in conventional mode<br>- in fan-forced convection mode | 0,81 kWh<br>0,68 kWh         |
| 6   | Number of cavities                                                                                           | 1                            |
| 7   | Heat source(s) per cavity                                                                                    | electric                     |
| 8   | Volume of cavity                                                                                             | 70 l                         |
| 9   | Mass of appliance                                                                                            | 33 kg                        |
